Jeff Hansen  
Sea Shepherd

Dear Jeff

We are writing to let you know about the proposal to industrialize the Kimberley coast through the development of gas refineries 50km north of Broome.

The proposal, if it went ahead, would destroy 30km<sup>2</sup> of land and 50km<sup>2</sup> of seabed on our land and sea Country. As well as the environmental damage, this proposal would destroy our Law and Culture including our songcycle which is crucial for the health and vitality of the land and people of this area.

The Goolarabooloo People along with our friends from around the world are fighting to save this Country from destruction. Our Sea Country here is the home of the Humpback whale. We have seen the work you have done to protect the whales in the Southern Ocean. We would appreciate any support you can give us to protect the Humpback in our Sea Country from the proposal to build an industrial port at James Price Point for LNG export.

If you are able to visit us then we will welcome you and your friends to our Country to join us in this campaign to protect our coast and our Culture.

Please do not hesitate to ring us on \_\_\_\_\_ for more information.

Regards
